Accomplishments

- Successfully created literature, including design layouts and content development, to target North American demographic. As a result, literature development was transferred from Japan to Bellevue.
- Designed marketing collateral that is requested for use by subsidiaries in other English speaking territories including the United Kingdom and Australia.
- Produced a series of marketing videos that became known internationally. Aiphone affiliates in Latin American and Taiwan requested minor localization edits and permission to use the videos in their regions to increase sales.
- Created successful marketing campaigns increasing product visibility and yielding direct sales leads.
